

It is such a joy to turn on the radio every a.m. and hear the music from K-love, I love living here in Springboro to be able to hear it anytime I want. I can't imagine only being able to hear secular music. K-love has such a calming effect in the car compared to the other stations out there. I will definitely be distraught if it is changed to LPFM broadcasting another program. Where will the residents of Springboro go for refuge from a hectic day? There is a big difference between listening to someone like Howard Stern and a D.J. from K-love. K-love promotes love and giving and growth. NO where else can you get that kind of message from another station on a consistent basis! What harm is love, giving and growth doing for the residents of Springboro? None! It helps promote peace, love and being good to fellow neighbors and drivers. Please keep it the way it is. We pay money every month just to keep it on the air. If we are willing to pay for it and the neighbors around us are as well, why take something away that is so beneficial?
